GLOBAL INDIA SHOPFITTINGS LLP.

Global India Shopfittings LLP is a dynamic modular furniture brand, proudly based in Maharashtra, India. With a strong foundation in innovation, craftsmanship, and customer-centric design, we specialize in creating versatile, space-saving, and stylish furniture solutions for offices and commercial spaces.

For years, we have been transforming spaces with our cutting-edge modular furniture that combines functionality with modern aesthetics. Our expert team of designers, engineers, and artisans ensures every product is crafted with precision and is built to last. From contemporary retail spaces to customized office interiors, our modular furniture is designed to suit diverse needs, providing flexibility, comfort, and timeless style.

As we continue to grow and innovate, **Global India** is excited to announce its plans to expand across India. With the ever-growing demand for customizable and space-efficient furniture, we aim to bring our high-quality, modular solutions to cities and regions across the country, offering customers a diverse range of furniture that can be tailored to fit their specific needs.

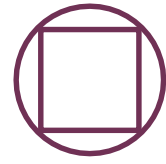

GLOBAL INDIA

SECTORS

As a professional manufacturer of commercial furniture, Global India is focused on some sectors where its expertise and ability are best used. These sectors are typical well-known spaces that every person sees every day in the lively and chaotic Mumbai, as well as in any other large Indian town: quick serving restaurants (QSR), some retail outlets and office spaces. Focusing on specific areas of business is a sign and proof of a business conduct aimed at giving tangible results to clients who want products and services specifically for their needs and their reality. Global India has a very deep knowledge in the design and construction of counters and reception desks, so much that in more than one occasion is also supplying airport projects for the check-in counters areas.

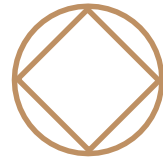

GLOBAL INDIA

QSR

Quick serving restaurants are at the core of Global India activity. The company designs and manufactures counters, from simple cash areas to complex and big counters that include plumbing, electric wiring, spaces for freezers and devices, where image and functionality must meet with durability and modular

structures, with affordable costs and fine materials, as solid wood and special surfaces. In addition, the company manufactures tables, claddings, ceiling-treatment structures, benches, bins and holders, and provides chairs and other elements that complement the interior of a QSR.

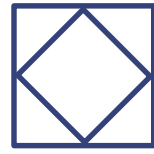

GLOBAL INDIA

RETAIL

Retail outlets, with their variety of materials and furniture, are the first sector that was developed by Global India at its start. Today the company is focused especially on some selected brands in the field of cosmetics and pharmacy, and first and foremost on the food-sector represented by supermarkets. Global India is, as a matter of fact, the

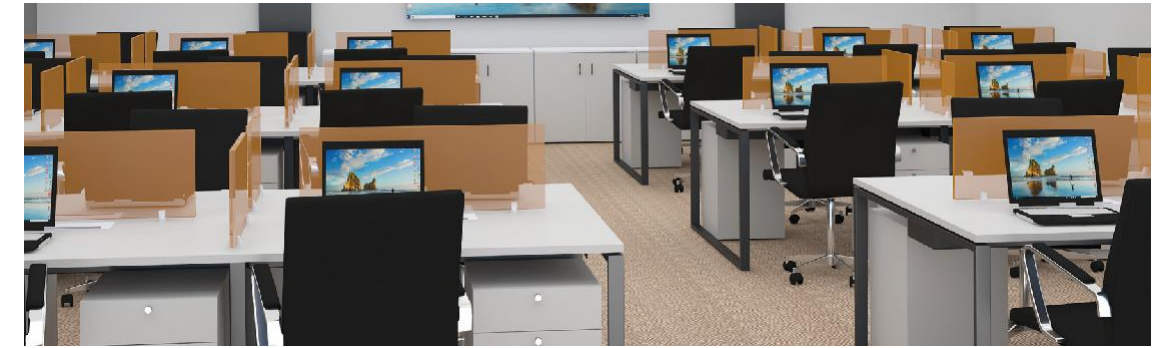

most important manufacturer of checkout counters for supermarkets of India, and has a proven experience in the manufacturing of all kinds of furniture that are required in a supermarket: checkouts, bread area, fruit & vegetables area, wine & beer, pulses & grains, service counters, special counters, promo furniture.

GLOBAL INDIA

OFFICE

Global India offers a very complete and detailed catalogue of furniture dedicated to office sector. All areas of an office have been studied and Global catalogue is the answer to all needs of a modern working space: desks and surfaces for all level of employees, with work-stations and clusters of writing

tables, manager offices, meeting rooms, reception counters of every shape and size, a complete series of cabinets and closets to store and hold. Every product is available in a defined series of sizes and project managers can receive the drawings of each so to ease the inclusion on a floor plan or in a rendering.

GLOBAL INDIA

SERVICES

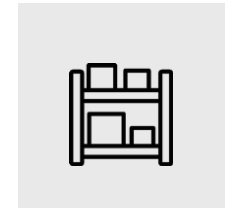

CONCEPT DESIGN

The definition of the complete look & feel of a space on the basis of positioning, display, image, target.

INTERIOR ARCHITECTURE

Shaping spaces by adding partitions, gypsum walls, false ceilings and creating layouts for successful outlets.

FURNITURE ENGINEERING

Development of fine technical drawings and ad-hoc solutions suitable to be implemented in manufacturing.

MANUFACTURING & PROCUREMENT

Modern manufacturing combined with international procurement, to be competitive in a complex supply scenario.

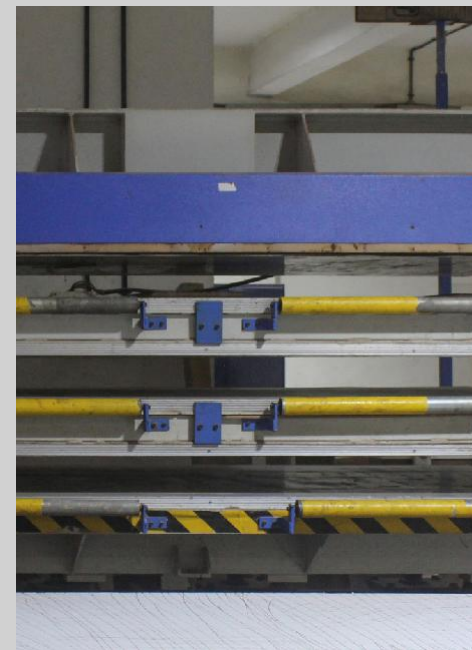

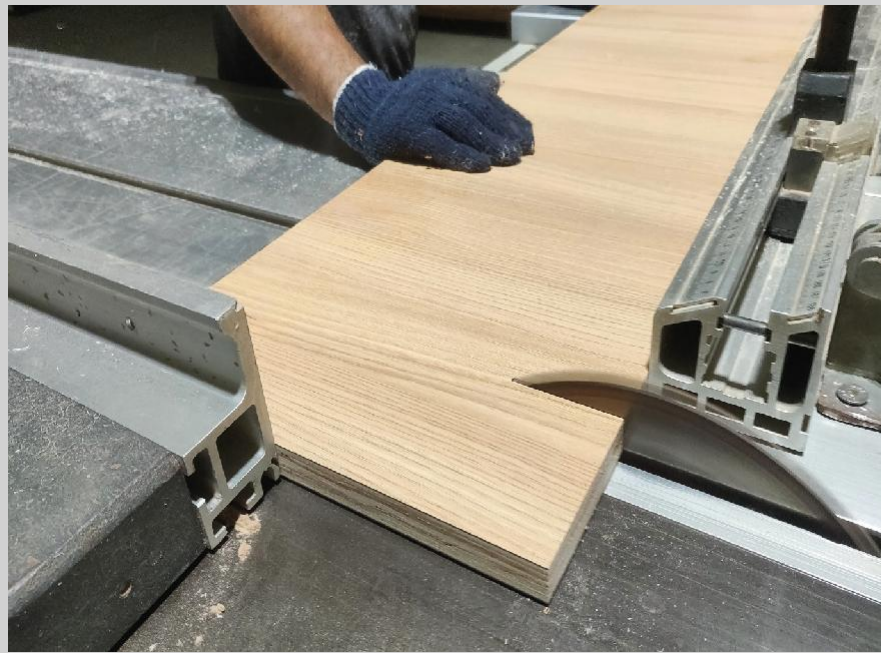

LOGISTICS & DELIVERY

The complete organization of the critical activities of shipping and delivery of goods when and where required.

SITE MANAGEMENT & INSTALLATION

Taking care of all aspects of installation and assembling, site supervision and collateral works management.

GLOBAL INDIA

MANUFACTURE

The manufacturing activities of Global India take place in the area of Shahapur, not far from Thane, in Maharashtra. The company concentrates its activity on the treatment of wood panels, wood elements, acrylics, solid wood and on the working of metal pipes and other metal elements by cutting and welding. Powder coating and laser cutting facilities located near-by complement the activities and ensure that Global India could deliver professional commercial furniture under controlled times and with the agreed level of quality and detail.
